

# Cosmetic Store Management

Sri Vasavi Degree & Pg College

**Team leader** : Kondapalli Devi Ganga Padmini

**Email** : [subrahmanyamk5959@gamil.com](mailto:subrahmanyamk5959@gamil.com)

**Team Member** : Esarapu Rama Lakshmi

**Email** : [ramalakshmiesarapu74@gmail.com](mailto:ramalakshmiesarapu74@gmail.com)

**Team Member** : Vissamsetti Hema Sri

**Email** : [Vissamsettihemasri67@gmail.com](mailto:Vissamsettihemasri67@gmail.com)

**Team Member** : Dirsipo Priyanka

**Email** : [dirsipopriyanka@gmail.com](mailto:dirsipopriyanka@gmail.com)

## **Project overview :**

cosmetic system management (CSM) involves overseeing the day-to-day operations of a cosmetics store, including buying and selling, sales and marketing, and staff management and Informing customers about new product and special events

## **Objectives :**

**Customer retention :** Address customer risks and concerns to retain customers

**Customer experience :** Enhance the customer experience and streamline the customer journey

**Product adoption :** Ensure customer adopt the product or services

**Bussiness outcomes :** Deliver position business outcomes

**Trusted advisor relationship :** Establish trusted advisor relationship with customers

**Account expansion :** Identity opportunities to expand accounts

## **Salesforce key features and concepts utilized :**

- ❖ Creating a developer org.
- ❖ Creating custom objects.
- ❖ Tabs.
- ❖ Lightning app(Workforce administration solution).
- ❖ Fields and relationships.
- ❖ Owd settings.
- ❖ User adoption.
- ❖ Import data.
- ❖ Profiles.
- ❖ Roles.
- ❖ Users.
- ❖ Page layouts.
- ❖ Chatters group.
- ❖ Record types.
- ❖ Permission sets.
- ❖ Reports and Dashboards.

## Detailed steps to solution design :

The screenshot shows the Salesforce Setup interface for creating a new custom field. The browser tabs include 'SmartInternz Credentials', 'Smartinternz', 'Retailer | Salesforce', and 'WhatsApp'. The URL is 'dqy00000meiwzmab-dev-ed.develop.lightning.force.com/lightning/setup/ObjectManager/01IQy000003eerR/Fiel...'. The page title is 'Retailer' and the breadcrumb is 'SETUP > OBJECT MANAGER'. The left sidebar shows the 'Fields & Relationships' section selected. The main content area is titled 'New Custom Field' and shows 'Step 3. Establish field-level security'. The field details are: Field Label: Delivery Type, Data Type: Picklist, Field Name: Delivery\_Type, and Description: (empty). The step instructions state: 'Select the profiles to which you want to grant edit access to this field via field-level security. The field will be hidden from all profiles if you do not add it to field-level security.' The table below shows the field-level security settings for various profiles.

Field-Level Security for Profile	<input type="checkbox"/> Visible	<input type="checkbox"/> Read-Only
Analytics Cloud Integration User	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Analytics Cloud Security User	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Anypoint Integration	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Contract Manager	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Cross Org Data Proxy User	<input checked="" type="checkbox"/>	<input type="checkbox"/>

What Are Reports?

Dashboards

Creating A Users:

1. From Setup, in the Quick Find box, enter Users, and then select Users.

2. Click New User.

3. Enter the user's name Amar K and (Your) email address and a unique username in the form of an email address. By default, the username is the same as the email address.

4. Select a Role(Store Head)

5. Select a User Licence As Salesforce.

6. Select a profile as Store Supervisor.

7. Check Generate new password and notify the user immediately to have the user's login name and a temporary password emailed to your email.

Fill in the fields (first name, last name, alias, email id, username, nick name, role, user licence, profiles) --> save.

Setup Home Object Manager

Before you import your data...

**Don't import too many records at once**  
Using the Data Import Wizard, import up to 50,000 records at a time. Importing too many records can slow down your org for all users, especially during periods of peak usage.

## Import your data in 3 easy steps!

Launch the Data Import Wizard to import your data.

  
Pre-step: Prepare your data for import

  
Choose data to import

  
Edit field mapping

  
Review and start import

**Launch Wizard!**

## Key takeaways

- **Understand the market:** Know your target market, competitors, and regulatory landscape 
  - **Manage inventory:** Use a database to track inventory and reduce paperwork 
  - **Optimize storage:** Ensure products are stored in the right space, temperature, and containers 
  - **Implement security:** Use CCTV cameras and other security measures to protect your inventory 
  - **Use technology:** Use Warehouse Management Systems (WMS) to improve efficiency 
  - **Monitor trends:** Track consumer demand to prevent overstock and long-term storage 
  - **Market effectively:** Promote your brand and drive sales 
-

## **Conclusion :**

In my point of view, the implementation of Salesforce is a complex process

that requires careful planning, execution, and testing. Throughout this project, we have outlined the key steps involved in implementing Salesforce, including requirements gathering, solution design, testing and validation, and deployment.

We have also identified key scenarios addressed by Salesforce in the implementation process, including sales, marketing, service, commerce, analytics, and integration scenarios.

By following the steps outlined in this project and addressing the key scenarios, organizations can ensure a successful Salesforce implementation that meets their business needs and drives user adoption.
